or 0277566161

#### PLEASE NOTE:

Our MotoX Graphics even though Strong & Thick, Are still Stickers , They will Wear over time & Scuff. If Maintenance is done correctly they will last longer & keep their nice Glossy sheen.

If any parts start lifting at any stage, Use a Craft Knife to Trim it back to keep it tidy & prevent it getting any worse.

#### MAINTENANCE AND CARE

Your Graphics need to be cared for, Treat them the same as you would your own bike. When you first receive your New Graphics installed on your Plastics, Please refrain from riding for at least 48 hours, To let the Graphics bond to your plastics, Use soapy water to clean them on your first ride. Please avoid using Solvents for cleaning, This will damage the surface & make it become dull looking. Silcon based Sprays are best after cleaning to prolong the life of your Graphics, Also giving them a nice Sheen.
